Johannes is a specialist when it comes to Business and Investor Visas. He understood right from the start what we needed, was always available and we appreciated to directly dealing with him, without any intermediaries during the entire process. His experience in dealing with Australian authorities and in-depth knowledge of the process made the whole endeavour stress free and effective. In Australia he provided us with a network of professionals, which was very helpful to set up business and hit the ground running. If you think of doing business in Australia, I can fully recommend Johannes to handle your migration process. [See less](#)
